

DESY Seminar

20 February 2007, 17:00, DESY Hörsaal

Christian Spiering (DESY)

The European Roadmap for Astroparticle Physics

With a Roadmap Document, the first phase towards a firm strategy of Astroparticle Physics in Europe is nearly completed. It covers fields like Dark Matter Search, proton decay, Double Beta experiments and related approaches to determine neutrino properties, and astrophysics with gamma rays, neutrinos, cosmic rays and gravitational waves. The Roadmap document has been prepared by the ApPEC Peer Review Committee, with ApPEC standing for "Astroparticle Physics European Coordination". The talks gives an overview about present and planned activities and indicates the required resources.

- Tea and cookies will be served at 16:45 in the lobby.
- After the seminar there is a chance for private discussions with the speaker over wine and pretzels also in the lobby.
