

Special Seminar

22 November 2005, 17:00, DESY Hörsaal

Antonio Zichichi
(University of Bologna)
Complexity at the Elementary Level

The two basic experimental evidences which characterize complexity, namely the ABF phenomenology and Sarajewo type events exist at the fundamental level and permeate all ways of life from quarks and gluons to molecular biology and life in general.

- Tea and cookies will be served at 16:45 in the lobby.
- After the seminar there is a chance for private discussions with the speaker over wine and pretzels also in the lobby.
