
The Proceedings of the International Conference and Loops and Legs in Quantum Field Theory 2010

will be published as a volume of Nuclear Physics B (Proc. Suppl.)

Editors: [J. Blümlein](#), [S. Moch](#) and [T. Riemann](#)

All presentations at the symposium will be published in the proceedings. The contributions have to be submitted until **July 1st, 2010**.

The speakers shall submit their contribution as one tar.gz-file.

Here you may find the [example file \(pdf\)](#) (135 kB), [a zip-file of the different style files](#) (11.4 kB),
and a [bibtex style file](#) (16 kB)

Changes in style files are not allowed and will not be referred to. We would like to notify all authors that the following demand of Elsevier Science B.V. is part of the contract:

The Editors will inform the Authors that papers will not be accepted if they have been published elsewhere, or are expected to be published elsewhere.

Please make sure, that upon 1st submission your article is complete and no further changes are needed. Those changes are usually very time consuming and lead to additional work of our secretaries, which we would like to avoid. A submitted contribution can only be considered to be final if all technical requirements are met. The use of modified style-files or text-parts acting in a similar way not being in full accordance with the publisher's requirements will be ignored completely in processing the article by the editors. All eventual changes have to be performed by the authors. A contribution will only be accepted if it arrives in FINAL FORM before deadline.

In the proceedings 6 pages are allocated for talks of 25+5 min and 10 pages for talks of 40+10 min. We encourage early submission of the contributions. Contributions to the workshop proceedings can be submitted starting now.

The contributions should be submitted via e-mail to lldesy@desy.de .
