

My Adventures at DESY Hamburg

Max Mustermann, University of Buxtehude, Germany

August 9, 2017

Abstract

Here put a short abstract of what one can find in this document ...

Contents

1 Introduction

This reports is giving a dedicated account of my summer in Hamburg. The weather was really bad, so that part of the measurement is excluded from this report.

2 Theory

In Figure ?? a typical face of a summer student after the welcome party is shown.

Figure 1: A typical smile when the day was over

3 Measurement

3.1 Subsection

Table 1: Tables are sometimes needed

City	Distance	weather	Comments
Hamburg	0 km	fresh wind	too cold
Bremen	98 km	also fresh wind	
New York	6548 km	hot	too hot

A typical day at DESY

- 8:45 running to the lecture hall

- 9:00 start of lecture - speaker is also a bit tired
- 12:00 lunch in the canteen - terrible again!!
- 13:00 trying to understand what my supervisor is trying to tell me
- 17:00 Strandperle - ok, this was not typical due to weather
