# Motives

- Mad Version 8.51/15 is available for several platforms
- Mad 8 is frozen (2002)
- Branch patch from Winfried to 8.51/16

# Problems

- Mad 8 compiled with Intel Fortran 9.1
- Mad 8 need Cern libraries
- Static libraries works only with Compac Fortran
- Build libraries from source with gcc & ifort
- No GKS -> Mad can't plot
- GKS from the Starlink project?
