

K_{ommittee fuer} **E**_{lementar} **T**_{eilchen} **-Workshop on**
QCD and electroweak physics
at the LHC
16 – 17 October 2006
DESY – Hamburg (1b, Sem4)

The workshop will be followed by a **Tutorial:**
QCD for LHC physicists
18-20 October (Geb 6, Sem 7b)

Program of the Tutorial:

- Intro to parton densities and factorization, global fits ...
- Multiple Interactions, underlying events, minimum bias event structures
- Jet production in LO and NLO calculations, implementations in MCs ...
